"THE BEAUTY OF THE DESERT THROUGH THE SEA"

EASTERN MANGROVE NATIONAL PARK, ABU DHABI

Sea Hawk Water Sports & Adventures wants to continue the journey of helping preserve our environment. Environmental movements usually start at the grassroots, but in Abu Dhabi green issues had a champion at the top with the late Sheikh Zayed. He was famous for his love of nature and he inspired many of the environmental projects that exist today. Preserving species such as the Arabian oryx and maintaining productive fisheries were so important to him. Sheikh Zayed's involvement with environmental issues grew out of a respect for nature that is embedded in Bedouin culture. The UAE has incredible beauty that will last a life time if we take care of it.

*“On Land and in sea, our forefathers lived and survived in this environment. They were able to do so only because they recognized the need to conserve it, to take from it only what they needed to live, and to preserve it for succeeding generations.”*
